Important

THE Business and Professional men, whose names appear herein, have gone to considerable expense in publishing this booklet, so that they can place before you a convenient and reliable Directory for your requiremnts and professional appointments.

WE would suggest that you keep this Booklet in a convenient place, as we know you will have occasion to refer to it many times each day during the year.

YOU will find it will save considerable time and inconvenience, everything you are liable to need being alphabetically arranged. Any business extended by telephone or through the mail will be greatly appreciated and will receive prompt and personal attention.

RES.—W1927

DID YOU KNOW—

CALGARY was so named in 1876 by Col. Macleod, then commanding the Royal North West Mounted Police detachment at this point. He named it after his old home, Calgary, a small estate on the Isle of Mull in Scotland, the Gaelic interpretation of which is "Clear Running Water."

ALBERTA

DID YOU KNOW—

THE business section and part of the residential district has spread over the valley which was the original townsite and has expanded over the surrounding heights until the city has covered an area of 26,368 acres. Calgary is situated in the centre of a rich agricultural, mineral and livestock area and is the headquarters of one of the largest irrigation projects in the world.

THE MARVEL HAIRDRESSING SCHOOLS

OFFER YOU

The most scientific instructions and most detailed theory and strict business training, in bright, spacious, modernly equipped class rooms, supervised by licensed instructors, teaching the latest modern styles direct from the style centers of the East.

MARVEL SCHOOLS offer you the very latest methods of permanent waving, finger-waving, facials, dyeing, bleaching, moulding, manicuring, massaging, sanitation, shop management and business. **MARVEL** Graduates are successfully operating shops in all parts of Canada, and

MARVEL SCHOOLS are constantly in touch with the leading style centers. **MARVEL GRADUATES** receive a life scholarship, which permits them to return for further training in the latest modern methods.

Calgary, Alberta

BEAUTY CULTURE is one business that is open to girls and young women. It is a modern business that has grown to astounding size within the last 15 years. A few years ago figures were given by Paul White, business analyst and statician in the United States, showing that over two billion dollars were spent in the beauty culture and cosmetic business. In one province alone last year two million dollars—or to be exact \$1,959,000.00—were spent in beauty parlors and barber shops. Women and girls everywhere realize the vital importance of their dailly personal appearance and the beautician's art is no longer regarded as a luxury, but one of the necessities of modern life. The Beauty Culture business does not stagnate, and in the last ten years has grown in a sensational way, and constantly demands new Ideas, New Styles, New Skill. It is now being recognized by Chemists, Scientists and Artists, and the manufacturing of Cosmetics and Beauty Culture supplies are employing thousands of skilled laborers in all parts of the civilized world.

Get Our Prices First

DID YOU KNOW—

CANADA was the leading exporter of honey to the British Isles in 1936. Shipments of the Canadian product amounted to 2,295,328 pounds, an increase of 560,000 pounds compared with 1935.

Stocks and Bonds in 1938

The famous depression of 1930-1935 disappeared in 1936 and by 1937 investors, administrators and industrialists were full of hope. In 1937 the recession took place and carried on until 1938, until people have begun to wonder whether the original depression is still here. Stock prices went down through the latter half of 1937 and in 1938 continued downwards until July, when hope returned and prices rose once more. People wonder whether there is any justification for the recent rise. It is my opinion that the currency of the U.S. and Canada, as well as of many other countries, is much too high in relation to basic products, especially from the farms. Therefore the currency must decline. When currencies decline it means that the price of gold goes up. Therefore the best gold stocks are the soundest investments. When the next devaluation takes place stocks of companies producing base metals will rise rapidly; the best bonds to meet this situation are those selling considerable below par, e.g., prices August 12th—

Calgary 4½% — 76

Edmonton 4½% — 75

Alberta 4½% — 63 (only paying half interest)

A. G. W. 5% — 80 - - - etc.

Investors have wondered if Alberta bonds are worth while. Of course they are worth while. In spite of the waste of money and time by the Alberta Government in the past, the province is intrinsically sound, and the people (that's you and me) are industrious and in the long run fair.

Early in 1938 Alberta bonds went down to around 50c on the dollar, but with better crops, the bonds came back. There is everything to be gained speculatively by buying Alberta Government Municipal Bonds at big discounts, and little to be lost. For sound long term safety, buy the best gold stocks.—R. C. CARLILE.

Chiropractic Adjustments

Restore Health

Every mortal is in pursuit of health and happiness. Have you investigated the Health Science of Chiropractic?

It is a sane and sensible system of removing the cause of disease and restoring health.

Clinical records show that there is hardly a recognized form of disease that has not been successfully removed by this method—not excepting the dreaded infantile paralysis.

Chiropractic seldom fails, never harms, is logical and will bear investigation. It is new to many, but has among its warm supporters thousands who have found relief.

No matter what your ailment may be, don't become discouraged. If you will call at my office, I will cheerfully tell you if Chiropractic is applicable to your case.

USEFUL RECIPES

A teaspoonful of sugar added to the water for basting meat will give the gravy a rich brown color, and will vastly improve the flavor.

To set delicate colors in embroidered handkerchiefs, soak them ten minutes, previous to washing, in a pail of tepid water in which a dessertspoonful of turpentine has been well stirred.

DID YOU KNOW—

GRAIN uses all the moisture available to the plant in the soil.

In addition to the rainfall during the growing season, any moisture reserves available to the plant are also used. At harvest time the moisture in the soil is practically exhausted. What moisture remains in the soil is held by the surface tension of the soil particles. Clay soil being of fine particles holds more moisture than a sandy soil which has coarser particles.

EIGHT GOOD PLACES TO LUNCH

LINQUEST ROD WEEDER

Single and Double Units.
Sizes eight to twenty-eight
feet. For horses and tractor
use.

Outstanding Features

Positive drive, quick, accurate
depth control, efficient and
dependable. High standard
quality

Successfully Used and Sold Since 1925

A complete steel weeder equipped with everything
to do the best work in all land and weed conditions.

All wearing parts are reduced to a minimum, giving
longer life and less trouble.

On account of its proper depth control it does better work
and is the ideal weeder for use in seeding time. On account
of its floating positive drive it will go through trash where
other weeders will fill up. Many in use thirteen years
shows the upkeep cost is less than any other weed killing
implement. A good Rod Weeder will pass beneath the
surface and hardly disturb the top soil.

Use the best and get results, also
satisfaction.

OUR REPAIR SERVICE IS THE BEST

DID YOU KNOW—

CEREAL crops appear to adjust their growth to the amount
of moisture available and as the time approaches when no
more available moisture remains in the soil the plants have
headed out producing a small quantity of seed and fail to make
much recovery if rainfall is received after this time.

Dear Friend:

Another season of lowered vitality and resistance is upon us. Statistics show that chronic ailments, dormant in the summer months, manifest themselves with the advent of winter.

Physical Therapy is the use of Nature's forces. Steam baths, massage, heat, light, etc., assist nature to relieve suffering. Our treatments have definite therapeutic value—especially to those suffering with lumbago, sciatica and other disorders peculiar to the winter months.

Whether you suffer from some painful disorder or just require a toning up physically to fight the lurking enemies of health that strike when your defences are weakened, our treatments will be of benefit to you.

We have recently added new units to our equipment to give our patrons the benefit of the latest development in the science of Physical Therapy, and we are prepared to give the same personal attention we have in the past.

Our service is not expensive. Call in, whether it is for a casual treatment to relieve a temporary condition or for a course to eradicate a stubborn disorder.

Yours truly,

MR. and MRS. R. C. HESS.

DID YOU KNOW—

HONEY is good for fruit preserving.
DIRECTIONS :

The bottles are first well filled with fruit; a mixture of equal weight water and honey is heated to boiling point and poured over fruit, filling jars. Use white rubbers; cook by steam in boiler. Boil 15 minutes, then turn heat down half and cook for 10 minutes for two-quart jars. For quart jars, boil ten minutes with heat on full, and ten minutes with heat turned down half. For pints, cook six minutes with heat on full and ten minutes turned down half.

DID YOU KNOW—(Turner Valley)

UNFORTUNATELY, until recently, all drilling was confined to the top of the structure, or in other words, to the gas zone, as the gas carried large quantities of easily recovered and marketed crude naphtha, and the western side of the structure was considered too deep. Wells were drilled on the eastern side of the field where, however, the sole fault cut off all possibilities.

SULLIVAN'S

1017 - 10th Street East
CALGARY

—◆—
**Where All the
Good Water
Tanks
Come From**
—◆—

Some people can make water tanks. But we (think) we know how. At least, we have had years of experience. Always looking for some way to improve on them. Hundreds of our tanks are in use throughout Alberta, and not one complaint has come to us. Quite the reverse—praise from several. We have as many as five repeat orders from one Ranching Company, so they must be good. We guarantee them. We use only thoroughly seasoned lumber, especially machined for the purpose. Well ironed and painted with No. 1 paint.

Inside depth 24" or 26"

Circular tanks are priced \$3.50 per diameter foot, F.O.B. Calgary

Oblong tanks of 9-barrel capacity or over are priced at \$3.00 per barrel, F.O.B. Calgary

Smaller sizes would have to be priced separate

**ALL TANKS CAN BE KNOCKED DOWN
AND ASSEMBLED ON YOUR FARM**

DID YOU KNOW—(Turner Valley)

A FEW WELLS, however, were drilled on the western edge of the top of the structure and it was found that these wells had a much longer life and produced much more oil compared with the amount of gas, than those on top and the Model well produced a fine quality of crude with a gas/oil ratio much higher than previously encountered.

over \$5.00.

DID YOU KNOW—(Turner Valley)

IT WAS NOT until the bringing in of the Turner Valley Royalties well in June of 1936, that real attention was directed to this part of the field. Since then, however, an active drilling campaign has been carried on and at December 31st, 1937, wells produced barrels of crude from the limestone on the western side of the field and there are now about 37 wells drilling, many of which are nearing completion.

MELTON WELDING WORKS

Phone M9415

House Phone E4002

CALGARY

ALBERTA

IF IT'S METAL WE WELD IT

Mr. Farmer:

We have been doing work for many of you for the past 25 years, but there are many more in the Calgary district to whom we would like to be of service.

We have moved to our new building on **5th Avenue and Centre Street**, and we are equipped to give you the very best of service in **Welding and Repairs**. We weld anything — Cylinder Heads, Broken-in Valves, Blocks, Gears, Shaker Shafts, and those Hard Pre-Heating Jobs.

Send us the next hard one — We can **SAVE YOU MONEY**

DID YOU KNOW—(Turner Valley)

THE DRILLING of wells in the top of the structure, or the gas zone, previous to the opening of the oil producing area, is very unfortunate as the tremendous wastage of gas has depleted the reserves to a great extent and the recovery of oil from the field will therefore not only be much more costly but much less will be recovered than if the oil zone had been opened first.

FIRST AID TO THE INJURED

GENERAL INSTRUCTIONS . .

1. Send for a doctor.
2. Stop bleeding at once.
3. Prevent dirt entering wounds.
4. Secure broken bones before moving patient.
5. Never attempt to reduce a dislocation.
6. In unconsciousness, lay patient on back.

Provide free access of fresh air; loosen clothing. Raise head slightly if face is flushed; if pale, keep low. Give nothing by mouth until consciousness returns.

Gunshot Wounds of Chest or Stomach: Place patient on wounded side with knees drawn up. Complete rest; no stimulants.

* * *

NOTE—A tourniquet can be made by placing a stone over main artery, tying handkerchief loosely over it, then twisting tightly with a stick.

Blood from artery is bright red; flows in jets.

Blood from vein is dark bluish; flows slowly.

DID YOU KNOW.—

NO PERSON having control or charge of a motor vehicle shall allow such vehicle to stand on any street unattended without first setting the brakes thereon and stopping the motor of said vehicle, and when standing upon a perceptible grade, without turning the wheels of such vehicle to the curb or the side of the street or highway.

ANTIDOTES FOR POISON

In cases where the other articles to be used as antidotes are not in the house, give two tablespoonfuls of mustard, mixed in a pint of warm water. Also give large draughts of warm milk or water mixed with oil, butter or lard. If possible give as follows:

For Bed-Bug Poison, Blue Vitrol, Corrosive Sublimate, Lead Water, Saltpetre, Sugar of Lead, Sulphate of Zinc, Red Precipitate, Vermillion: Give milk or whites of eggs in large quantities.

For Fowler's Solution, White Precipitate, Arsenic: Give prompt emetic of mustard and salt—a tablespoonful of each—follow with Sweet Oil, Butter or Milk.

For Antimonial Wine, Tartar Emetic, drink warm water to encourage vomiting. If vomiting does not stop, give a grain of Opium in water.

For Oil Vitrol, Aqua Fortis, Bi-Carbonate Potassa, Muriatic Acid, Oxalic Acid: Give magnesia or soap dissolved in water, every two minutes.

For Caustic Soda, Caustic Potash, Volatile Alkali: Drink freely of water with vinegar or lemon juice in it.

For Carbolic Acid: Give flour and water or glutinous drinks.

For Chloral Hydrate, or Chloroform: Pour cold water over the head and face, with artificial respiration, and use galvanic battery.

For Carbonate of Soda, Copperas, Cobalt: Give promptly emetic of soap or musilaginous drinks.

For Laudanum, Morphine, Opium: Give strong coffee, followed by ground mustard, or grease in warm water to produce vomiting. Keep in motion.

For Nitrate of Silver: Give common salt in water.

For Strychnine, Tinct. Nux Vomica: Give emetic of mustard or sulphite of zinc, aided by warm water.

DID YOU KNOW—

ALL DRIVEWAYS and roadways in St. George's Island Park and Riley Park are hereby declared to be one-way traffic streets and all vehicles in such parks shall proceed in one direction only and the operator of every vehicle shall turn his vehicle to the right on entering such driveway or roadway.
